I received the attached letter from Jim Swanson last week.

I am not sure who contacted him, but the information these people shared with Jim is not accurate.

The only retirement I mentioned was my own.

Someone did ask me if Jim was retiring, and I do recall saying I didn't know but I thought his daughter was still in school.

I also experienced a similar situation with Chris Poupore from Nadeau Fire Dept. and Tom Philipps from Mid County Rescue saying they were told the radio console's at 9-1-1 were full and could not accommodate more pager codes.

I just wanted to inform the Governing Board members of this issue.

Thanks, Debra

Debra,

In the past several weeks I have had numerous individuals stop by my office and ask me if I am, indeed, retiring or when I am retiring. Each time the source of this question has been traced back to you and remarks you made at the latest 9-1-1 Governing Board Committee meeting.

We have recently invested tens of thousands of dollars in upgrades to the shop as well as equipment and training, taking on several new lines of radio, CCTV, and public safety equipment in addition to those we have represented for many years. As our product line grows and our services evolve and expand we are looking forward to the next decade in business.

I am unsure where you received the fallacious information that I was planning on retiring as it most certainly was not from me or Denise. Perhaps you just assumed I would retire in the near future and felt it appropriate to share your assumptions with others in a manner that came across as fact. I cannot stress strongly enough my displeasure with your comments and the great potential for a negative impact on my business because of them.

I respectfully request you immediately cease spreading this erroneous information and correct your previous comments to other committee members who may be sharing this fabricated information. I will not hesitate to take further action if this issue is not resolved promptly and to my satisfaction.

Sincerely,

A handwritten signature in black ink, appearing to read 'Jim', written in a cursive style.

James E. Swanson
